*RT30 rated for pools up to 40,000 gallons
**CT50 rated for pools up to 80,000 gallons

- WATER DESCALING SYSTEM
- REVERSE OSMOSIS SYSTEM
- CHLORINE OUTPUT FEEDER
- pH CONTROL VALVE

WARRANTY:
Ultimate Water provides this Warranty for the Chlorine Genie and its parts to be free from defects in materials and workmanship for 10,000 Operating Hours (Estimated Years: 5), with the exception of the Chlorine-Generating Cell which has a Warranty Term of 6,000 Operating Hours (Estimated Years: 3). Full warranty details available in your Owner's Manual.

OUR PATENTED TECHNOLOGY

The Chlorine Genie uses an electrolytic cell submerged in salty brine water to produce the chlorine your pool needs.

The water is softened by a reverse osmosis system and water descaling system built right into the unit.

The electrolytic cell breaks salt and water into the basic elements: chloride, sodium, hydrogen, and oxygen.

The sodium combines with the hydrogen and oxygen and is used to control the pH of your pool water.
